

KIDS IN NEED OF DENTISTRY

**Chopper Topper is scheduled to visit Malley Drive Elementary
February 26 - March 1, 2019**

We have provided consent forms for first and second grade students; please send them home with students 1-2 weeks prior to our visit. Chopper Topper would like to share a video explaining our program to your school. **Please encourage teachers, parents, kids to visit kindsiles.org/chopper-topper to watch the video before we come to your school.**

Enclosed is the School Agreement. Please fill this out and fax or mail it back to our office **as soon as possible.**

Please make copies of the letters for the third grade teachers. The letter for the third grade teachers is only necessary if we were at your school last year. If we were at your school the previous year we will be seeing third graders to check for sealant retention. Third grade students do not need a consent form.

This program is available to **all first and second graders.**

We do submit a claim to Health First Colorado (Colorado's Medicaid Program) or CHP+, but do not collect any other money.

NO money is collected from the school or child.
Children do not need to have Health First Colorado (Colorado's Medicaid Program) or CHP+ to participate.

We strive to provide this great service as many children as possible.

The goal is to have a signed consent form from every first and second grader.

Students returning a **signed consent** form will receive a dental screening, a toothbrush, a 2 minute timer, referrals as needed, fluoride varnish, and sealants when indicated.

Please collect the consent forms from the first and second grade teachers prior to Chopper Topper's visit.

We will have a prize for the class with the most returned consent forms.

A drawing for a bicycle will be held at schools with a participation rate of 90% or above.

While we do our best to be the least disruptive as possible, we will be taking children out of class and possibly specials. We would like to ask your help in communicating with the school staff and parents the value of our visit. Your help in passing along the information will be greatly appreciated.

Plan on us being at your school two to four days, this depends on participation the first day. We plan on arriving at the school about an hour before school starts in order to set up equipment and fill out paper work. Once we are set-up it is difficult to move the equipment. **Please be sure the space is available to us the entire time we are at the school.**
